

ENVIRONMENTAL POLICY 2021

Date: 05.01.2021
Code: ΕΠΔ-01
Rev.: 17

SOUKOS ROBOTS S.A. is successfully applying to its activities an Environmental Management System according to the International Standard EN ISO 14001:2015 since 2006 until now.

Following a course of sustainable development, the company has recognized the need for adopting production processes and services to the maximum safety level for the environment. SOUKOS ROBOTS S.A. commits itself to the continuous improvement of its activities and makes a continuous effort to prevent the environmental pollution caused by them. Additionally, it commits itself to the observance of the relative environmental legislation and the regulations that govern it, and the provision of products and services with minimal negative consequences to the environment.

It also commits to the observance of other legislations and requirements, like contracts, co operations, agreements, etc.

SOUKOS ROBOTS S.A. cooperates with other companies, clients, scholars, state or local authorities and in general all the implicated parties in ENVIRONMENTAL issues in order to set, achieve and review its objective environmental aims and goals.

The President and the General Manager, in cooperation with the company's staff, commit that they will continuously apply the company's Environmental Policy in an efficient way, and they will provide all the means and resources for the continuous operation and improvement of the Environmental Management System according to the Standard EN ISO 14001:2015.

SOUKOS ROBOTS S.A. ensures that its personnel are provided with the proper guidance and advice regarding the Protection of the Environment and it is encouraged to participate in the continuous improvement of the Environmental Management System.

Our main concern is to guarantee that the personnel are highly capable and skilled for the execution of their duties and to provide all the necessary information, directions and training in environmental issues.

The present policy is updated and revised in the frame of the Management review and is available for the briefing of the personnel, the clients, the suppliers or any other interested party.

Apart from the above mentioned, the company has integrated its ecological sensitivity and its environmental vision in the production program, and has set strict goals in relation to the protection of the environment.

Chairman & CEO
Soukos Konstantinos
